

Hoist type ----- XM308ND2H13A/43

Beam size suitable  
for min radius of  
curved 1500mm

Caratteristiche generali :  
General characteristics

|                                                                                     |                                                  |          |
