

Diagram illustrating the dimensions of a wheel assembly. The wheel diameter is 100mm, the axle diameter is 125mm, and the axle length is 22mm. A force R is applied to the axle.

Technical drawing of a lifting hook assembly. The drawing shows a side view of a hook with a lifting eye. Dimensions are indicated: a vertical distance of 25 units from the top of the hook to the center of the lifting eye, and a horizontal distance of 130 units from the center of the lifting eye to the center of the hook's body. A label "Lifting hook 7m" is present at the bottom left.

The diagram illustrates the MIRA 1000 L CE system components and their connections. A control unit (left) is connected to a main unit (center) via a blue cable. The main unit is connected to a sensor unit (right) via a black cable. The sensor unit is shown with its internal components, including a sensor head and a base unit. The sensor unit is also connected to a power source (bottom right) via a black cable. The power source is labeled 'MIRA 1000 L CE' and '1000 L CE'.

Peso paramoro : 390 Kg

NOTE :
 Ala trova standard Mista fino a 300mm
 Larghezza minima dia trova : 130 mm
 Per oli superiori a quelle indicate, la quota C (Ingombro gancio)
 aumenta di 12mm ogni 10mm di larghezza dia trova.
 Beam size standard Mista up to 300mm
 Minimum size for beam : 130mm
 For wider beams dimensions than the indicated ones, the C dimension
 is 12mm more every 10mm of beam size more.
